Aboveground Storage Tanks Vapor Recovery Workshop

Dear Sir or Madam:

The Air Resources Board (ARB) is developing enhanced vapor recovery (EVR) standards for vapor recovery systems using aboveground gasoline storage tanks (ASTs). It is ARB's intent to apply EVR standards for AST vapor recovery systems through a new rulemaking process. The ARB is tentatively scheduled to consider the AST EVR rulemaking package at its December 2003 meeting. The purpose of this workshop is to provide an update on ARB's current and future efforts towards adopting AST EVR standards.

The time and place for the workshop are as follows:

DATE: Thursday, April 24, 2003

TIME: 9:30 a.m. to 12:00 p.m.

PLACE San Joaquin Valley Unified APCD
1990 E. Gettysburg Avenue
Fresno, California

The meeting will be video teleconferenced to SJVUAPCD's offices in Modesto and Bakersfield. Directions to these offices can be found on the following link:
http://www.valleyair.org/General_info/directions_fresno1.htm.

We invite your participation at the April 24, 2003 workshop.

If you cannot attend the workshop and would like to provide comments, or if you have questions regarding this workshop, please contact Pat Bennett at (916) 445-9308, or via e-mail at pbennett@arb.ca.gov.

Sincerely,

William V. Loscutoff, Chief
Monitoring and Laboratory Division

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
